28 FRIDAY 8:00 p.m. BASKETBALL/Gymnasium. Vikings vs. Simon Fraser University. 9:15 p.m. HOCKEY/Esquimalt Arena. Vikings vs. Esquimalt.			COVER: A bird on the head isn't worth anything, even in badminton. Photographer Robin Clarke caught DON STENTON (physics) in mid-swing, letting his feathered friend get past him (for once) in a regular Tuesday-night club game in the gym.

Campus Events

The new commons block for Craigdarroch and (later) Lansdowne Colleges will be open for preview visits Tuesday, February 25, from 2:00 to 4:30 p.m. Chancellor Emeritus J. B. Clearihue will take part in a brief opening ceremony at 2:30 p.m. For Craigdarroch students, the long trek to the cafeteria for meals becomes a mere matter of nostalgia on March 3 -- according to DORIS SCHUH, director of food services.

Post-mortems of Valentine's Day have their perils, but the Faculty Club is going to risk it. A Valentine's Party will be held at the Faculty Centre on Saturday, February 22, starting with cocktails at 7:00; dinner begins at 8:30. Tickets are \$7.00 a couple.

Dr. Joyce Tompkins, an authority on 19th-century English literature and particularly on the works of Rudyard Kipling, will give three lectures on campus next week. She is now visiting professor at Dalhousie, after a distinguished career at the University of London. As indicated on the calendar side, her topics will be "The Younger Kipling" (Tuesday at 7:30), "The Elder Kipling" (Thursday at 12:30), and "The Poetry of William Morris: Its Place in His Life" (Thursday at 7:30). Arrangements for Dr. Tompkins's visit were made by DR. LIONEL ADEY (English).

The Author, a new one-act play by PROFESSOR ROBIN SKELTON (English), is scheduled to be given its first performances March 6 to 8 if the way is cleared at the Phoenix Coffee House Theatre. Ruth, a play by departmental colleague LAWRENCE RUSSELL, will share the billing.

Campus Events

A few notices of special lectures were received after the Newsletter's deadline for the calendar side. On February 17, Gordie Robilliard of the University of Washington's zoology department will lead a biology colloquium on "Antarctica - Biological and Physical Effects on Marine Benthos." The time is 8:00 p.m., and the place Elliott 167. Coffee will follow in the building's faculty lounge.

The geography department reports (belatedly) three visiting speakers for the second half of February. On the 17th, Dr. Philip Wagner of SFU's department of geography will speak at a colloquium on cultural topology, at 3:30 p.m. in Cornett 145. On the 18th, Dr. Richard Morrell of the University of Washington will lecture on "The Geography of Poverty" in Cornett 335, starting at 9:30 a.m. On the 24th, a colloquium will be held (3:30 p.m., Cornett 145) under the title "Geography: Formal or Informal." Speaker will be Dr. John Chapman of UBC.

One other speaker who didn't find his way to the other side is Dr. Eugene Forsey of the Canadian Labour Congress. He will discuss "Constitutional Reform: What and How Much?" February 27 at 12:30 in Elliott 168. Future speakers under the auspices of the University lecture committee include philosopher Alan Watts and author-broadcaster Pierre Berton.

An evening division series on "the new artist," which began earlier this month with a lecture on film by PROFESSOR DONALD HARVEY (art and art history), continues with a study of industrial sculpture by colleague ERIC HILTON. This will cover, among other things, the new materials now being used, and the way in which they are employed for industrial, architectural, and artistic purposes. The lecture will be given in MacLaurin 144 at 8:00 p.m. Wednesday, February 19. Individual sessions are \$2.00.

Faculty/Staff News

DR. KENNETH MOSS (chemistry) has been awarded a grant of \$5,700 by the Research Corporation, a U.S. foundation concerned with scientific research, to aid a project entitled "NMR Studies of Transition Metal-Fluoro Complexes in Anhydrous Hydrogen Fluoride." Dr. Moss has been conducting research on the hydrogen fluorides by nuclear spectrometry, a means of studying minute components of these substances.

The University rugby club, through manager HOWARD GERWING (library), has appealed to faculty and staff to support the club's forthcoming tour of Britain. Tickets on a car raffle are available from players, from Mr. Gerwing (Room 310, McPherson Library), or at the SUB office. For the record, games will be played against Old Edwardians, Birmingham; Edinburgh Academicals; Trinity College, Dublin; Glamorgan Wanderers, Cardiff; and the Greyhounds of Oxford University.

Nurse VERA McKENZIE of the student health service reminds everyone on campus that tuberculin tests are given to all comers to the office in Hut "V", any weekday from 9:00 a.m. to 3:00 p.m.

NADHIM AL-QAZZAZ (physics) will present a paper on "An Analog Computer for Tracing Beam Envelope" at the Western Regional Nuclear Conference to be held February 21 at UBC.

One or two roles are still to be cast for the production of Moliere's Tartuffe to be staged March 26 to 29 at the McPherson Playhouse. Anyone seeking a part should call DR. RALPH ALLEN (theatre) at 410 immediately.

Faculty/Staff News

The summer session, at the instigation of its director, DR. HUGH FARQUHAR (education), has burst into full bloom on the cover of its 1969 calendar. The University's coat of arms appears in all the official colours -- blue, red, and gold -- complete with helm, mantling, crest, and other heraldic delights. A few extra cover-sheets were run off for Information Services; copies may be obtained (while they last) by a call to local 372.

The latest issue of the CAHPER Journal, a publication of the Canadian Association for Health, Physical Education and Recreation, sports a cover photograph of the Victoria campus, and gives details on this summer's national convention here from June 16 to 18. Sessions will include seminars with some of Canada's top athletes and keynote speeches by experts from many parts of North America. Among those most deeply involved in planning are PROFESSOR FRED MARTENS (education) and DR. ROBERT BELL, director of athletics.

Revisions of the University's folder for visitors and its general descriptive booklet are expected to be off the press during the next three weeks. Stocks from last spring have dwindled while a decision was pending on a Fine Arts status-shift from School to Faculty. Senate approved the change earlier this week.
